STATION 2 HELPER GM — THE ALCHEMIST'S LAB (TRICKSTER'S COIN)

Pair: Quasimodo (Artificer) & Shaggy Rogers (Rogue) · **Goal:** find the one **lighter** counterfeit vial among 10 using the balance scale and offer it to the jester's bowl → **Crest #2 + Evidence Card E2**. **Target:** 10–15 min. Full rules: `Stations/Station_2_Alchemist_Lab_Tricksters_Coin.md`.

Before the players arrive

- Ten **identical** vial cards in the rack, in order 1–10. Scale mat with the tilt card on **LEVEL**. Jester altar standee.
- Weighing Log and a pencil on the table. Side-effect cards (d6) in your hand. Envelope 3 (the ledger) "in the desk drawer".
- **Pick a mode with the lead GM:** □ **Fixed:** vial **#6** is the fake (simplest) · □ **Trickster's Shuffle:** keep the Suspect Tracker (boxes 1–10) on your clipboard.

Your special job: running the scale

Players put vial cards on the LEFT and RIGHT pans and say "weigh." Answer with **exactly one** of these, every time, and move the tilt card:

> "The LEFT pan rises." · "The RIGHT pan rises." · "The pans hang perfectly level."

- **Uneven counts** (e.g. 3 vs 2): the pan with **more** vials drops, so the other pan rises. This tells them nothing.
- **Even counts:** the pan holding the fake **rises**. If the fake is on neither pan → **level**.
- Always say which pan **rises**. Never switch to "drops" partway through.
- **Shuffle mode:** before answering, split the current suspects into *left / right / off the scale*. The fake hides in the **biggest** group. Announce the result that fits, then cross off everyone else.
- **Weighing cap:** 4 free weighings. On the 4th the scale **creaks**. On the 5th and later the bat **shrieks** and whoever weighed rolls a side effect. It never becomes unwinnable.

Station clock

Time	Do this
0:00	Read the Player Introduction aloud. Start the timer.
2:00–3:00	**Envelope 1** when they inspect the altar. Lore: Religion DC 10 (Quasimodo d20+4, Shaggy d20+0).
4:00–6:00	**Envelope 2** when Quasimodo sends Esmeralda. Prompt if needed: *"Quasimodo, your rat's whiskers are twitching at the rack."*
8:00–9:00	Point them at the desk: **Envelope 3** (Investigation DC 10; on a fail they still find it after a minute).
11:00	Still stuck, or after a wrong offering with a frustrated table: **Envelope 4**.
15:00	Lead GM's bell = hard stop. Finish fast, then **Envelope 5** and send them to the Gate.

Answer key (Fixed mode, fake = #6)

- 10 vials: W1 {1–5} v {6–10} → RIGHT rises · W2 {6,7} v {8,9} (10 aside) → LEFT rises · W3 6 v 7 → LEFT rises → **#6**.
- 9 vials (Esmeralda cleared #1): W1 {2,3,4} v {5,6,7} → RIGHT rises · W2 5 v 6 (7 aside) → RIGHT rises → **#6**.

STATION 2 HELPER GM — RUNNING THE ROOM

Failure rules (no damage anywhere in this room)

- **Wrong vial offered to the bowl:** angry sizzle, colourful smoke, the jester spits it back (it's now **cleared**). The person who offered it rolls d6:

d6	Side effect (lasts 5 min or until the station ends)
1	Bubble Burps: pink bubbles every time they speak
2	Helium Voice
3	Radioactive Glow (disadvantage on Stealth)
4	Sneezing Fit
5	Heavy Boots (speed −2 squares)
6	Tingling Fingers (move cards with two fingers of each hand)

Quick rulings

- **"I drink it!"** The wax seals are enchanted. Only a drop gets through: roll a side effect, no damage. The vial stays full. Not a critical mistake.
- **Hefting vials by hand:** *"They feel exactly the same."* No roll.
- **One vial against an empty pan:** the loaded pan drops. It counts as a weighing.
- **Several vials in the bowl:** spat back out. *"One offering."*
- **Clever ideas** (a homemade second scale, floating vials in water): count it as **one free weighing** and answer with the same rules.

Nudges (questions only)

When	Say
Wandering	*"The jester's bowl looks like it's waiting for something."*
Weighing 1 vs 1	*"Does the scale only take one bottle per pan?"*
After LEVEL: "that told us nothing!"	*"Did it tell you nothing, or something about the bottles left on the table?"*
Going in circles	*"Which vials can you be sure are real right now?"*
About to guess	*"Do you have a weighing left? Is guessing worth the risk?"*

Character rulings

- **Quasimodo, "Esmeralda the Rat":** clears **one** genuine vial (#1, or the lowest-numbered suspect in Shuffle mode). Use only while 3 or more suspects remain. With 2 left she just squeaks and shrugs. She can never find the fake.
- **Shaggy, "Iron Stomach":** no harm from tasting. May spend a use to end his own side effect early. Powers Envelope 4.

Don't

- Don't say a vial number as a hint, or look at the fake.
- Don't say "use 3 weighings" or "split into fives." That *is* the puzzle.
- Don't call a level result useless. Don't let a skill roll replace the scale.

Reward (Envelope 5)

Hand over **Crest #2** and **Evidence Card E2**: *"Take these to the Grand Gate!"*

STATION 2 — ENVELOPE LABELS

ENVELOPE 1 · LOOK AROUND

Station 2 · Lab. Open when they inspect the altar (**2–3 min**).

ENVELOPE 2 · YOUR SHEET

Station 2 · Lab. Open when Quasimodo uses **Esmeralda** (4–6 min).

ENVELOPE 3 · THE RULE

Station 2 · Lab. "In the desk drawer": open on a desk search (**8–9 min**).

ENVELOPE 4 · SEALED: EMERGENCY

Station 2 · Lab. **Helper only.** At 11:00 if stuck, or after a wrong offering.

ENVELOPE 5 · REWARD

Station 2 · Lab. Open on solve: **Crest #2 + Evidence Card E2**.

ENVELOPE CONTENTS

ENVELOPE 1 · THE ALTAR INSCRIPTION

Hand this to the players.

> "The Trickster mocks honest gold and heavy metal. Give to my bowl the hollow lie, the weightless fraud, the lightest craft, and the gate shall grant you passage."

Religion DC 10 (read aloud on success): *"This is an altar of the Smiling Shadow, god of forgers and frauds. It accepts only the false thing, never the true one."*

ENVELOPE 2 · ESMERALDA'S NOSE (READ ALOUD)

> Esmeralda scurries along the rack, whiskers twitching. At Vial #1 she rears back and sneezes: a hairline crack in the black wax leaks sharp quicksilver vapour. That one is the real thing. She pushes it out of line with her nose. The other seals are perfect.

Shuffle mode: swap "#1" for the lowest-numbered suspect.

ENVELOPE 3 · THE SCORCH-MARKED LEDGER

Hand this to the players.

> "Night forty. My apprentice weighs the bottles two by two and wastes the whole night. Fool. A scale answers three ways, not two: left rises, right rises, or it hangs even. When it hangs even, it speaks of the bottles left on the table. Weigh many at once. Keep some aside. And never trust a scale with uneven pans."

ENVELOPE 4 · SHAGGY'S BELCH (READ ALOUD)

> Shaggy digs a squashed triple-decker sandwich out of his pocket and wolfs it down. A second later: a concussive, echoing BURRRP. Glowing pink bubbles drift across the lab, sniff around the rack like a lost puppy, and settle, fizzing, on top of three vials.

Bubbles mark 3 current suspects, one of them the fake (both, if only 2 remain). Players still do the last weighing.

ENVELOPE 5 · EVIDENCE CARD E2: THE SINGED SLEEVE

Goes in with Crest #2.

> Under the workbench: a torn lab-coat sleeve peppered with tiny burn holes from splashed quicksilver. Whoever wore it **mixed potions every day**.
